

Here are the materials you will use to play Tangrams Race!

The cat tangram will be the puzzle for level 1 and the house tangram will be the puzzle for level 2!

You will need to print out one set of shapes (2 pages) and one copy of each puzzle per team.

Cut out and laminate (optional) the shapes before playing. You can even have your students help you cut out the game materials to reinforce their shape learning!

If you would like to use an existing set of tangrams, please be advised that the circle and hexagon are not part of a normal tangrams set. These shapes are not necessary to play the game.
